CRNE GORE SKIJALIŠTA

PORODIČNA STAZA (BJELASICA, VRH TROGLAVA – RESTORAN „TROGLAVA“)

Dužina: 7,62 km
Startna visina staze: 2.042 mnv
Maksimalna visina: 2.042 mnv

Start: Žičara K8 – 1.600 mnv

Opis: Startuje se u podnožju, sa žičare K8, koja bicikliste prevozi do vrha Troglava. Nakon silaska sa žičare, pruža se fantastičan panoramski pogled na Crnu i Zekovu glavu, Lumer, Lisu, Komove, Kučke planine, Ključ, Maganik, Moračke planine, Tornu, Umovo, Vučje, Gradišta, Sinjavinu, Ogorelu glavu, Razvršje...

Vožnja počinje makadamskim putem, koji je širok i bezbjedan za vožnju, iako se uz put mogu sresti motorna vozila i domaće životinje, pa dodatni oprez nije odmet. Staza, kako je i prikazano na mapi, cijelom dužinom vodi planinskim makadamskim putem, pa fizički napor i nije presudan za dolazak na cilj. Staza je prepuna raskrsnica, pa je neophodno pratiti signalizaciju kako bi vožnja bila bezbjedna do samog kraja.

Vozeci sa najviše tačke, makadamskim putem, stiže se na graničnu liniju sa Nacionalnim parkom, gdje se nalazi uključenje na CT1 biciklističku stazu, kojom se malim dijelom vozi. Prilikom spuštanja, pogled se pruža na zelene pašnjake, katune, skijaške staze i planinske masive, kako je gore navedeno. Takođe, u nastavku vožnje, nailazi se na planinarski dom Bjelasica. Staza je bogata izvorima hladne, pitke vode, tako da planina nudi osvježenje, a za one upornije, čak i okrepnu borovnicama ili šumskim jagodama.

Dakle, staza omogućava laganu i ugodnu vožnju, jer, iako je planinska, gotovo cijelom dužinom je nizbrdica, pa su rekreativci i te kako pozvani da dođu i uživaju u čarima Bjelasice na potpuno drugačiji način.

Na kraju staze je restoran Troglava, koji nudi veliki izbor pića i hrane, uz pogled na tačku sa koje je krenula vožnja, pa se, uz osvježenje, lijepo mogu sumirati utisci i dodatno memorisati ljepote Bjelasice.

FAMILY TRAIL (BJELASICA, PEAK TROGLAVA – RESTAURANT TROGLAVA)

Length: 7,62 km
Starting elevation point: 2.042 meters above sea level (ASL)
Max altitude: 2.042 meters above sea level (ASL)

Start: K8 Chair lift – 1.600 meters above sea level (ASL)

Description: The route starts at the bottom from the K8 chair lift which is used to transfer bicycle riders up to the Troglava peak. When you exit the chair lift you will have a fantastic panoramic view over Crna and Zekova glava, Lumer, Lisa, mountain Komovi, Kuči mountains, Ključ, Maganik, Morača mountains, Torna, Umovo, Vučje, Gradišta, Sinjavina, Ogorela glava, Razvršje...

The ride starts with a gravel road which is wide and safe for a ride, although during the ride you may encounter other vehicles and some cattle, so you should be extra careful. As it is shown on the map, the track during its complete length goes through a mountain gravel road, therefore not only physical effort is enough to get to the finish line. There are a lot of crossroads along the way, therefore it is necessary to follow the signalization in order to be safe during a ride.

Riding down from the highest point via gravel road you will come to the borderline with the National Park, where you intersect with CT1 bike trail and you continue to ride on that trail in just a small fraction. During the descent down the trail, you'll have a view of green meadows, huts, ski slopes, and mountains. Also during the ride, you will pass by the mountain lodge Bjelasica. The mountain offers all kinds of refreshments, from cold spring water to blueberries and strawberries for those who are a little bit persistent.

So, the trail provides an easy and comfortable ride, even though it's a mountain ride, almost the entire length is downhill, and therefore beginners are more than welcome to come and enjoy to all of the magic of the mountain Bjelasica in a completely different way.

At the end of the route restaurant Troglava is located, which offers a vast selection of food and beverages. From the restaurant you have a beautiful vista at the starting point of your ride and with some refreshment, you can summarize all impressions and emotions and memorize Bjelasica as one of the true beauties.
